## Response to stakeholder feedback

# Technical reference guide: Coal dust explosion suppression and prevention

The Resources Regulator circulated the technical reference guide (TRG) Coal dust explosion suppression and prevention for targeted consultation in April 2024. There was no stakeholder feedback seeking amendments.

Internal feedback was received and has been addressed as set out below:

### ***1. Include further details in section 7.1 passive explosion barrier design parameters***

Further details have been included for extra stone dust bags for extra explosion protection in conveyor belt roadways, in suspended belt structures or ventilation ducts or large pipes

### **Resources Regulator's response**

The further detail for extra stone dust bags have been included in section 7.1 of the TRG
